PROFESSIONAL SUMMARY

Full-stack engineer and founder building at the intersection of AI, Web3, and purpose-driven technology. Currently building Coinslive (Web3 education dApp) and Humantra (life-guidance rooted in Sanatan Dharma). Previously Co-founder & CTO at Webyalaya/Humitra (ended Apr 2026), architecting peer-to-peer learning on Human/AI/Blockchain pillars, scaling to 50K+ users across multi-cloud infrastructure. IIT Kanpur alumnus.

FOUNDER / CURRENT STARTUP WORK

Coinslive — Founder & CEO | May 2026 – Present

- Web3 education dApp with NFT-based certification; 3,000+ users, 450+ active community members
- Beginner-friendly explainers, live cohorts, challenges, and proof-of-work projects
- React rebuild boosted engagement 250% and content consumption 85%

Humantra — Founder | May 2026 – Present

- Life-guidance initiative rooted in Sanatan Dharma: self-practice, counselling, community, and technology
- Helping people find clarity, discipline, and purpose through spiritual learning and digital tools

EXPERIENCE

Co-founder & CTO — Humitra Pvt Ltd / Webyalaya | 2025 – Apr 2026

- Built peer-to-peer learning platform (Human/AI/Blockchain) incubated at IIM Lucknow
- Production stack: Next.js/Vercel, AWS ECS/Fargate, Azure PostgreSQL, LiveKit video, S3, Cloudflare, GitHub Actions CI/CD
- Led cross-functional team; ran DevOps hiring via LinkedIn/Instagram; Azure DevOps agile delivery
- Drove AI roadmap: conversational agents, RAG discovery, on-chain governance primitives

Software Engineer Intern — TalentSavvy Software | May 2025 – Sep 2025

- Full-stack SDLC analytics apps; automated Python ETL workflows
- Designed AI-driven CI/CD agent using LangGraph; led prompt & context engineering with Claude Code/Cursor IDE

System Analyst — Contata Solutions | Aug 2021 – Aug 2022

- Spring Boot carpooling app (MongoDB, Neo4j, PostgreSQL); matched 10K+ riders, reduced wait time 25%
- Civic issue reporting platform (Angular, Spring Boot); 5K+ monthly requests; CI/CD pipelines cut release cycles 60%

SELECTED PROJECTS & HACKATHONS

- **Aheadd.ai**: Career guidance platform utilizing Neo4j to implement a GenAI pipeline for personalized career roadmaps
- **Vedic Meet**: Video pipeline (Lambda/FFmpeg/S3); latency -45%, costs -30%; React Native iOS rebuild
- **PureFoodsDelhi**: Serverless logistics on AWS; 50+ brands, 500+ products, automated SKU/inventory
- **ASBDesign**: Gamified design education; AI curriculum, 5K+ learners, 70% completion, RAG job search
- **CoinsLive.org**: Blockchain education dApp + NFT certification; 3K+ users, 450+ community; React rebuild
- **EiLearn (ETHGlobal)**: AI Web3 trading education; EigenLayer AVS fraud detection; built in 48hrs
- **DungeonVerse (ShapeCraft)**: Decentralized dungeon-crawler on Shape network; Top-3 finish
- Competed in 15+ global Web3 hackathons; Top 5 in 6 events; 20+ PoC blockchain solutions
